

To Whom It May Concern,

It is a privilege to recommend Mr. Amir Hossein Jazayeri for admission to your Master's program. I have taught him in several fundamental courses, including Data Structures, Algorithm Design and Analysis, and Linear Optimization. In each of these, he distinguished himself not only through excellent grades but also through his ability to approach problems with creativity and precision.

Amir Hossein achieved top marks— $10/10$  in Data Structures,  $9/10$  in Algorithm Design, and  $9.7/10$  in Linear Optimization—placing him among the very best of his cohort. These results reflect his strong analytical skills, disciplined study habits, and capacity to master both theoretical and applied aspects of computer science. His performance consistently demonstrated a rare combination of speed, accuracy, and depth of understanding.

In addition to his coursework, Amir Hossein has actively engaged in research. He has collaborated on a project concerning the **Mostar Index**, a graph-theoretic concept with applications in chemistry and network analysis. His contributions to this team effort have been substantial, ranging from formulating ideas to refining proofs and ensuring clarity in presentation. The project is now nearing completion and is being prepared for submission to a peer-reviewed journal, a testament to his readiness for advanced academic work.

Amir Hossein's strengths extend beyond academics. He is thoughtful, reliable, and highly collegial. He demonstrates initiative in group settings, often helping to organize tasks and motivate peers. His openness to constructive feedback and his respectful communication style make him an asset in any collaborative environment. These qualities, combined with his intellectual ability, suggest that he will thrive in graduate-level study and research.

I am confident that Amir Hossein will excel in your program and contribute meaningfully to both scholarly and community endeavors. I recommend him wholeheartedly and without reservation.

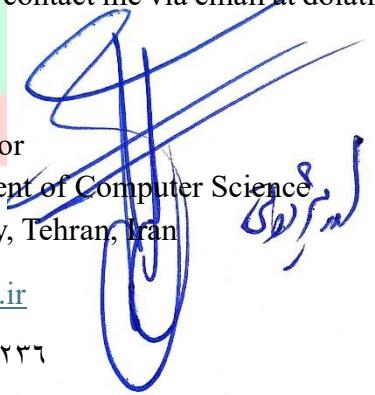

Please feel free to contact me via email at [dolati@shahed.ac.ir](mailto:dolati@shahed.ac.ir) if you need any further information.

Sincerely,  
Ardeshir Dolati,  
Associate Professor  
Dean of Department of Computer Science  
Shahed University, Tehran, Iran

**Dear Admissions Committee,**

I am writing to recommend “Amir Hossein Jazayeri” for admission to your esteemed Master’s program.

As his instructor, I have had the pleasure of observing and guiding his academic growth, and I can confidently attest to his exceptional academic abilities, outstanding personal qualities, and remarkable potential for success in your program.

Amir Hossein was an undergraduate student in my courses, and I had the opportunity to witness his academic excellence firsthand. He consistently demonstrated a deep understanding of complex concepts, and his academic achievements were outstanding. Specifically, he earned an impressive 19.25/20 in "Database Design", 17/20 in "Introduction to Computation Theory", and 17.5/20 in "Data Mining". Additionally, as a Teaching Assistant (TA) for Introduction to Computation Theory, Amir Hossein demonstrated exceptional communication skills, patience, and a genuine passion for mentoring his peers.

I am confident that Amir Hossein will make an excellent addition to your program.

*Sincerely,*

*Amin AliAbdi {a.aliabdi@shahed.ac.ir}*

*Assistant Professor,*

*Department of Computer Science,*

*Faculty of Basic Science,*

*Shahed University,*

*Tehran, Iran.*
